

# THE GREAT BODY SHOP

The Children's Health Market, Inc.

*Your health education materials for grades K-5 are on their way!*

Every teacher can soon expect to receive a Teacher's Guide. Before removing any items from the box, notice that the grade level for the Teacher's Guide is marked on the front of the box and on the spine of each of the Instructional Units.

Each Teacher's Guide will contain:

- ✓ 10 yellow Instructional Units
- ✓ 4 Critical Thinking Posters
- ✓ 1 blue Implementation Guide
- ✓ 10 Student Issues

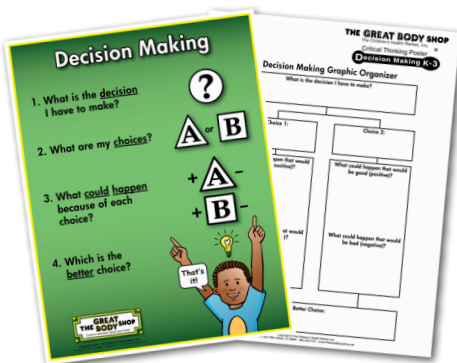

## Instructional Units:

Each unit contains developmentally appropriate lessons, handouts, varied formative and summative assessments, constructional response questions, reinforcement activities, and more.

## Implementation Guide:

This guide will provide you with an overview of THE GREAT BODY SHOP and useful background information.

## Critical Thinking Posters/Graphic Organizers:

These posters and graphic organizers are designed to help students learn and practice critical thinking skills across all health topics and themes.

**Student Issues:** One copy of each theme-based Student Issue is included in your Teacher's Guide. Your students will also receive their own personal subscription to THE GREAT BODY SHOP which provides all ten Student Issues. The Student Issues are annually reviewed and updated. They look like a health magazine and are read like a periodical or informational text.

*\*All printed materials come with digital access to THE GREAT BODY SHOP for teachers and students.*
